Prime Fishmeal

(MIXED SPECIES)

Prime Fishmeal is a 100% pelagic Fishmeal made exclusively from whole fresh ocean anchovies, sardine and mackerel in the pristine waters and cold currents of the South Pacific in Chile. The meal is quickly cooked, pressed to remove oil and moisture, and ground to a uniform particle size. It is then treated with mixed tocopherols as a natural antioxidant agent.

Prime Fishmeal is traceable from the catch condition on-board the fishing boat to the final delivery vehicle. Production facilities are duly audited and account with Marine Trust and GMP+ Certifications as a sustainable fishery.

Prime Fishmeal is certified and tested as 100% marine ingredient and there is no risk of blends of other meals. It is recommended as an ingredient in premium formulations.

Prime Fishmeal <i>MIXED SPECIES</i>	Typical	Range
Crude Protein	66.3%	65/68%
Fat	8.2%	7/10%
Moisture	8.5%	7/10%
Salt and Sand	3.5%	3/5%
Sand Alone	0.3%	0.1/0.5%
Ash	15.8%	14/17%
TVN	110mg/100g	80/150mg/100g
FFA (max)	8.5%	7/10%
Histamine (ppm)	430 ppm	180/1000ppm
Antioxidant	1500 ppm Natural	1000/2000 ppm Natural

Alternative Packaging: 1,250 kg Jumbo bags or 25 kg PP bags.

Country of Origin : Chile
