

PUFAOILS

SALMON OIL

PUFAOILS SALMON OIL available in a refined form, is a high-quality marine oil derived from farm-raised fish of the Salmonidae family, sourced and manufactured in Chile, the second largest salmon complex in the world. Rich in long-chain Omega-3 polyunsaturated fatty acids (EPA and DHA), which are essential for advanced pet nutrition formulations. The refined oil undergoes further processing to increase EPA+DHA concentrations, delivering enhanced nutritional profiles.

Manufactured under HACCP protocols, oils are stabilized with mixed tocopherols, free from environmental contaminants, which provide excellent oxidative stability.

PUFAOILS SALMON OIL guarantees full traceability and is responsibly sourced across its supply chain.

Alternatives of packing: (1) Flexitank /20'FCLs, (2) 195 kg steel/plastic drums in 20'/40'FCLs, (3) 1,000 kg corrugated lined liquid totes in 20'/40'FCLs.

Specifications	REFINED SALMON FISH OIL
FFA	0.25%
Moisture	0.10%
Impurities	0.10%
Gardner Color	< 8
Peroxides Value	5 meq O ₂ /kg max.
Iodine Value (Wijs)	140 g I ₂ /100g
Unsaponifiable matter	1%
Saponification Value	170-195
Anisidine	15 max
TOTOX	25 max
Total Omega-3 Fatty Acids EPA + DHA	8-11% 5-7%
Arsenic	< 0.1 mg/kg
Cadmium	< 0.1 mg/kg
Mercury	<0.1mg/kg
Lead	<0.1 mg/kg
Dioxins + Furans	4 ng EQT- OMS/ kg referred to 12% humidity
PCDD + PCDF	6 ng EQT- OMS/ kg referred to 12% humidity
